Program

Monday, 15th of November, 2021

7:45 - 8:00 Registration

Lectures / recorded surgeries

- 8.00 - 8.15 Welcome and course objectives.
- 8.15 - 8.45 Getting started in endoscopic ear surgery.
- 8.45 - 9.15 Endoscopic ear anatomy.
- 9.15 - 10.30 Procedures 1:
• Myringoplasty: inlay, underlay and over-under techniques
• Retraction pockets
• Ossiculoplasty
- 10.30 - 11.00 Coffee break
- 11.30 - 12.15 Procedures 2:
• Stapedotomy
• Cholesteatoma
• Other procedures: middle ear tumors, facial nerve decompression, vestibular neurectomy, acoustic neuroma, combined endoscopic-microscopic approaches (cholesteatoma, cochlear implants, tumors)
- 12.15 - 13.00 Round table "Future perspectives in endoscopic ear surgery"
- 13:00 - 14:00 Lunch

Hands-on dissection (LABORATORY)

- 14.00 -14.30 Live demo
- 14.30 -15.15 Basic techniques I:
• Handling and positioning the endoscope
• Myringotomy and ventilation tube insertion
• Graft harvesting
• Inlay grafts
- 15.15 -16.30 Basic techniques II:
• Tympanomeatal flap elevation, atticotomy
• Underlay grafts
• Extended tympanomeatal flap
• Over-under grafts
• Stapes surgery
• Ossicular reconstruction (TORP, PORP)
- 16.30-17.00 Coffee break
- 17.00-17.30 Live demo
- 17.30-19.00 Advanced techniques:
• Facial decompression, combined retroauricular-transcanal approach, cochlear implants, vestibular neurectomy, access to IAC, two-handed surgery
